TOUFICUL ISLAM TUSHAR

BACKEND DEVELOPER / SENIOR SOFTWARE ENGINEER

Email: tushar.khan0122@gmail.com
Phone: +8801644459849
GitHub: github.com/tusharkhan
Packagist: packagist.org/users/tusharkhan
Address: Sector 5, Uttara, Dhaka

Results-oriented Software Engineer with expertise in PHP, Java, Laravel, Spring Boot, MySQL, and JavaScript, specializing in scalable and secure backend systems. Skilled in RESTful API development, database optimization, and modern AI-driven development. Adept at creating AI agents, integrating MCP tools, and leveraging AI to accelerate delivery and resolve complex debugging challenges for high-quality software solutions.

CORE SKILLS

Java & Spring Boot | PHP & Laravel | AI Agents & MCP Tools | AI-Assisted Development | MySQL | NodeJS & NestJS | React | DevOps

WORK EXPERIENCE

Senior Software Engineer
01/2026 – Present

Inovace Technologies Ltd.
Dhaka, Bangladesh

- Designed and developed enterprise backend services using Java and Spring Boot, implementing comprehensive payroll management and fiscal year tracking modules.
- Created custom AI agents and integrated MCP (Model Context Protocol) tools to automate workflows, accelerate coding processes, and enhance application intelligence.
- Managed Linux servers, CI/CD deployment pipelines, SSL configuration, and cloud infrastructure on DigitalOcean.
- Wrote clean, maintainable code adhering to SOLID principles while leveraging AI tools for advanced structural design pattern implementation and rapid debugging.
- Optimized application architecture, database schemas, migrations, and strategic indexing maps to ensure high availability and robust horizontal scalability.
- Collaborated with clients and stakeholders to gather rigorous technical requirements and translate them into architectural solutions.

Senior Software Engineer
01/2023 – 12/2025

SoftValley
Dhaka, Bangladesh

- Designed and developed scalable, high-performance web applications using PHP, Laravel, MySQL, and robust REST APIs.
- Optimized enterprise application performance to sustain high concurrency, system availability, and structural scalability.
- Designed highly efficient MySQL storage layouts and accelerated query performance through strategic indexing.
- Built and integrated enterprise-grade RESTful APIs to enable secure communication between platform modules and third-party web services.
- Hosted production projects securely on cloud infrastructure servers and managed routine maintenance schedules.

Software Developer
03/2021 – 12/2022

Golden Info System
Dhaka, Bangladesh

- Developed a custom analytics data dashboard for clients, significantly enhancing data visualization and executive decision-making.
- Implemented state-of-the-art authentication and authorization frameworks to guarantee robust data security and role-based access control (RBAC).
- Conducted strict automated and manual QA testing cycles, leveraging PHPUnit to execute comprehensive unit testing suites.

EDUCATION

B.Sc. in Computer Science and Engineering 2020
Daffodil International University, Dhaka, Bangladesh

Higher Secondary Certificate (HSC) 2014
Uttara High School and College, Dhaka, Bangladesh

Secondary School Certificate (SSC) 2012
Uttara High School and College, Dhaka, Bangladesh

OPEN SOURCE PACKAGES

banglafaker github.com/tusharkhan/banglafaker
A highly useful Laravel Bangla Faker data generator designed explicitly for localized database testing and seeders.

chatbot github.com/tusharkhan/chatbot
A framework-agnostic PHP chatbot library with native multi-platform integrations including web client streams, Telegram, and Slack hooks.

File-database github.com/Team-Dot360/File-database
A lightweight flat-file JSON database mechanism optimized for small-scale projects, allowing effortless structured data storage without database engine overheads.
